

Shaping Your Life

Personal Consultation with **Michael Rice**

My name is **Michael**, Irish born and living in the Czech Republic. I am a Sacred Architect by training and inclination, and am passionate about how beauty and harmony is created and maintained on all levels of manifestation.

Over the last number of years I have been developing and presenting Talks, Workshop Events and Experiential Seminars which invite and support people to explore and express their **Fullest Potential** in all aspects of their lives. Recently I have opened to give Personal Consultations to Individuals, Couples and Small Groups which are intended and structured to specifically help them move forward in whatever area of their lives that feels stagnant, blocked or diminished. The Nature of the Issue is not so immediately relevant, but rather the *Energetic Reality* that underpins, generates and defines its **Shape** and **Movement**.

Everybody has at least one **Dream**, and this Dream has a **Shape**. It could be about realising and fulfilling your Deepest Purpose or Soul Mission, building a Sacred Space that you wish to call Home, developing some personal project, opening your mind, changing your physicality, becoming a better parent, enhancing the *depth* and *quality* of your relationships, or perhaps something a little less specific, such as simply wishing to be **Happier**.

Over the last thirty years of working intimately with people who wish to **Build** their **Dreams**, I have developed the capacity to **connect** with their **Inner Truth** and open to perceive their best possible **Future Selves**. Through this process of *Co-Creative Shamanic Resonance*, I seek to facilitate personal and collective awareness and awakening as to why it is you are here and with whom, and how best to navigate forward to ensure success. During this open exchange, information tends to present in various forms; including but not limited to *Symbolic*, *Archetypal* and *Psychological* patterns and movements. My role is to allow this information to flow and coalesce into a coherent **Shape** that can be engaged with and communicated to each person effectively.

Each Consultation is a unique *Fractal Reflection* of the Individuals involved, and the *Holistic Energetic Matrix* that they present in that moment. Movement forward is neither formulaic or repetitive, but rather seeks to make us aware of an **Optimal Pathway** to natural and beautiful emergence of **Self**. Put simply, the Consultation will encourage and enable people to perceive and align with their **Truth**, and consciously learn how to utilise this information to self guide themselves towards their **Dreams**.

A consultation lasts for **1.5** hours, (90 minutes), which gives time and space for the energy to flow and express. It costs **144 Euro** for one Person.

It is important to state that a Consultation is about supporting and providing information and guidance that may help people move constructively forward. No claims are being made as to any innate personal healing process or procedure. However, many people have shared that these Consultations marked a **Key Moment** in their lives that triggered and motivated them to a healthier and more joyful experience of Life itself.

It is recommended that people bring some sort of recording device, such as a smartphone or dictaphone, to ensure full recall and reference afterwards.

If you wish to book a consultation, or find out when and where they are available, please contact **Michael** via email - sacredarchitecture618@gmail.com

I am in **Service** to your **Evolution**, because a **Better You** means a **Better World** for **All**.

Love,

Michael
